

-Math Sites-

Here are some websites where you can find additional help. Some have tutorials that are aligned with our math textbook or specific math standards.

7th Grade Pre-Algebra

- <http://www.mathslideshow.com/pre-alg/main.htm>

This site has actual slide shows for each lesson in our book.

- <http://www.thinkcentral.com/index.htm>

OK, at this site you can put in a keyword ms8ca, followed by a space, followed by a section number and you will arrive at a site with actual videos with a math teacher. The problem is the sections are different than our book. I can give you sections and their keywords if you like or just try some... Example: "ms8ca 1-8" Also: keyword "ms8ca parent" -- list of parent resources including games AND a bilingual glossary in 12 different languages!!
